

SEMINAR

- Title of the Talk** : **Advanced Weather Research Forecasting (WRF) System: Results from Development Test Center (DTC)**
- Speaker** : **Dr. Bob Gall, Director, DTC,
National Center for Atmospheric Research (NCAR), USA**
- Venue** : **ADPC Seminar Room**
- Date & Time** : **11 December 2007 at 16.00 Hrs**

Abstract

WRF system is developed simultaneously at NCAR (Advanced Research WRF code) and NCEP, NOAA (NMM-WRF code) USA. Both the models are currently used by many research communities as well as national weather services around the world. The DTC is custodian of these two models. In this talk, the speaker will provide a comprehensive comparison of these two state-of-the-art meso-scale models.
