

**Arbeiter–Samariter–Bund Deutschland e.V. (ASB)**
***Building resilience for children with disabilities: strengthening DRR information delivery***
***Republic of Indonesia***
**Yogyakarta province:** Sleman district and Gunung Kidul district

1 June 2010 – 31 August 2010

**Components** Institutional capacity building; DRR information delivery; children with disabilities outside of school; community based DRR; multi-hazard.

HFA Priorities for Action 4 &amp; 5

**Result 1- The establishment of DRR information delivery mechanisms for children with disabilities outside of school.**

- 1.1 Socialisation and coordination with Government, cadres and DPOs (Disabled People's Organisations)
- 1.2 Establishment of operational information delivery system
- 1.3 Monitoring and project review with Government
- 1.4 Formalisation of the information delivery system

**Result 2- Ensure the DRR information delivery mechanism established under Result 1 is operational.**

- 2.1 Reproduction of existing ASB DRR materials for children with disabilities to be distributed to TKSK and FKPSM (sub-district level cadres), DPOs and at the village level for PSM (village level cadres / social workers)
- 2.2 Training of trainers Level 1 (ASB to TKSK/FKPSM/DPOs)
- 2.3 Training of trainers Level 2 (TKSK/FKPSM/DPOs to PSM)
- 2.4 Production of practical trainers' handbook for trainers on how to conduct community based trainings on DRR for children with disabilities

**Result 3- Children with disabilities outside of school, and their families and neighbours, are provided with practical DRR multi-hazard information.**

- 3.1 PSM and DPOs conduct survey to identify children with disabilities outside of school, and their disability types, to verify government data (Supervised by TKSK/FKPSM and ASB)
- 3.2 Analysis of data from survey and final beneficiary identification (ASB and TKSK/FKPSM)
- 3.3 Community training schedule finalised based on verified data above and according to disability type and location (TKSK, PSM and DPOs with ASB)
- 3.4 PSM and DPOs provide trainings on DRR to children with disabilities and their families and neighbours. DPOs to focus on children with disabilities with acute communication difficulties (i.e. deaf children, children with autism or severe learning difficulties and hyperactive children).
- 3.5 Children with disabilities, their parents and neighbours conduct evacuation drill under supervision of PSM, DPOs and TKSK/FKPSM.

### **Links to previous outputs on DRR & CCA**

DRR material and products to be utilised under this action are ASB DRR educational materials, including those for children with disabilities. Produced previously under the previous DIPECHO project and the German Ministry of Foreign Affairs supported actions.

The DIPECHO 7<sup>th</sup> Action Plan project links with previous outputs from the DIPECHO 6<sup>th</sup> Action Plan that provided DRR trainings and materials to inclusive schools in Yogyakarta. The project also builds on experience of providing DRR information on a large scale to primary and special needs schools as supported by the German Ministry of Foreign Affairs.

ASB is supporting the [One Million Safe Schools](#) and Hospitals Campaign in Yogyakarta.

### **Planned products**

Handbook for trainers on how to conduct community based trainings on DRR for children with disabilities.

### **Focal points, partner agencies and institutions:**

Department of Social Affairs Sleman, Yogyakarta

Department of Social Affairs, Gunung Kidul, Yogyakarta

### **About ASB:**

ASB is one of Germany's oldest and largest social welfare organisations. Formed to provide medical services to factory workers during the Industrial Revolution ASB went on to become a key player in the establishment of formal emergency services within Germany. Today, ASB has over 1.2 million members and 200 affiliated offices. ASB's Indonesia office is a lead actor in providing practical DRR solutions to people with disabilities.

**Project supported by the European Commission Humanitarian Aid & Civil Protection department (ECHO) through its Disaster Preparedness Programme (DIPECHO)**

CARE Nederland

CARE Indonesia

**Linking and Learning to Strengthen Capacity and Collaboration on DRR in NTT, Indonesia**

**Area of Intervention**

The project will be implemented in 10 villages in 4 districts of NTT province as listed below:

- Sikka district – villages of Reroroja and Nangahale
- Ende district – villages of Paupanda and Tanjung
- Timur Tengah Selatan (TTS) district – villages of Linammutu, Oekiu, Nakfunu and Noebesa
- Kupang district – villages of Tolnaku and Nunkurus

July 2010 – October 2011

**Components: capacity building and learning, risk assessment, mitigation, advocacy, mainstreaming disability, climate change awareness**

**Result 1 Strengthened capacities of communities and local institutions to cooperate on planning and action to mitigate hazard impact and prepare for disasters**

- 1.1 At least one mitigation measure in each of the 10 project villages identified and implemented in Ende, Sikka, TTS and Kupang districts
- 1.2 Eight DRR groups obtain basic skills in disaster mitigation, contingency, first aid, including PWD in DRR in Ende, TTS and Kupang districts
- 1.3 350 community members and local government staff in eight villages collaborate on DRR integration in village annual planning and budgeting in Ende, TTS and Kupang districts
- 1.4 500 community members and local government staff in 10 villages are aware of district government development planning processes, DM and natural resource management policies
- 1.5 A functional and operating structure for DRR mitigation, contingency and development efforts is present in at least 2 districts

**Result 2 Strengthened mechanisms in learning, cooperation, advocacy and dissemination among and between communities, and between communities, authorities and local partners**

- 2.1 DRR forums have been established representing all community members, and district and provincial staff plan for re-enactment of the DM bill in 3 districts NTT province'
- 2.2 Multi-stakeholder DRR forums in 3 districts have disseminated information on DM bill re-enactment, mitigation and preparedness to 10 villages
- 2.3 Advocacy messages on disaster prevention in coastal zones, in areas at high risk from floods and landslides and DRR integration in village planning delivered by the District government to 300 provincial and district government officials, civil society and private sector representatives
- 2.4 Local stakeholders have produced and disseminated 3 films to advocate for disaster prevention in coastal zones, in areas at high risk from floods and landslides and to show community, NGO and local government collaboration in 4 districts in NTT
- 2.5 All 10 villages have participated in inter-village training and exchange learning's with different villages
- 2.6 Project management structure has been established and is functional to facilitate coordination between and among consortium partners and key stakeholders, including local government

**Activities**

Activity 1. Community Capacity building in DRR and preparedness planning

- 1.1 Eight Communities conduct a village-level hazard, vulnerability, capacity assessment
- 1.2 Train and community DRR groups in organizational management, financial, and fund raising
- 1.3 DRR groups and village governments develop DRR mitigation and preparedness plans and SOPs
- 1.4 Train communities and local government representatives on first aid, the role of PWDs in DRR, mangrove rehabilitation, and provide necessary follow-up support
- 1.5 Community DRR groups implement actions based on DRR mitigation and contingency plans
- 1.6 Support the process of integrating DRR in village planning and village regulations
- 1.7 Identify and develop advocacy messages for presentation to district government

Activity 2. Local institution capacity building

- 2.1 Encourage local governments to provide assistance to village DRR groups in implementation of DM Act, other DRR-related policies and in discussing critical DRR issues

Last updated: August 2010

- 2.2 Initiate and support development of district multi-stakeholder DRR platforms
- 2.3 Support the capacity building needs of district government DRR structures through training, research, and development of advocacy materials

Activity 3. Joint capacity building follow-up and learning

- 3.1 Conduct inter-village follow up to training, exchange learning and documentation of good practice on DRR
- 3.2 Hold multi-district learning forums on DRR for coastal zone management, floods and landslides management and DRR integration, and identify and document good DRR practices

Activity 4. Joint advocacy and dissemination

- 4.1 Support local stakeholders in the joint production and dissemination of three films on coastal management, floods and landslides management
- 4.2 Support local stakeholders in awareness campaigns on functions and benefits of mangrove to support livelihoods and to mitigate disasters' impact
- 4.3 Facilitate and support a provincial meeting for presentation of advocacy agenda by district government and other key stakeholders

Activity 5. Project Management and Coordination

- 5.1 Establish a Project Management Unit for the consortium to implement coordinated activities
- 5.2 Undertake joint partner monitoring of project activities to enhance implementation.
- 5.3 Conduct quarterly Steering Committee meetings to discuss progress and address concerns (if any)
- 5.4 Conduct joint project evaluation/assessment

**Links to previous outputs on DRR & CCA**

- Manual for Facilitators in Forest Firefighting and Disaster Management Training, 2004, soft cover-publication
- Village Planning and Land Mapping for Kalimantan Forest Carbon Partnership, 2009 (under AIFCP Facility)

**Planned products (products, IEC materials, CCA components etc.)**

Action brochures, primer and flyers, preparedness plans, risk reduction plans, training kits, advocacy films, proceedings of meetings and workshops, and lessons learned documents

**Project supported by the European Commission Humanitarian Aid & Civil Protection department (ECHO) through its Disaster Preparedness Programme (DIPECHO)**

<b>International Organization for Migration (IOM)</b>	<b>Yayasan IDEP Bina Selaras</b>
West Java Office, Bandung	Jl. Raya Pengosekan, Br Pengosekan Kelod, Ubud, Bali
<b>Enhancing Disaster Preparedness and Response Capacity in Garut District, West Java</b>	
<b>Garut District, West Java, Indonesia</b>	
June 2010 – August 2011	<b>Components:</b> <i>CBDRR- Community based disaster risk reduction; capacity-building, health component, community action plans.</i>

**Result 1:** The capacity of local government bodies and communities to identify, assess and monitor disaster risks is enhanced and their disaster preparedness increased

- 1.1 Assist governments to develop/update their hazard mapping, risk assessments, emergency response SOPs and DRR action plans
- 1.2 Work with local governments, IOM's implementing partner and PMI to socialise the emergency response SOPs and DRR action plans and conduct simulations
- 1.3 Provide technical support to government officials to develop/enhance their disaster data and information management system as well as to improve their capacity to collect and disaggregate data to identify vulnerabilities
- 1.4 Encourage government officials to feed the disaggregated data into the existing Indonesian Disaster Data and Information database (DIBI) and to relevant authorities including BNPB

**Result 2:** The capacity of health facilities, health staff and communities to prepare for and rapidly respond to natural disasters is enhanced.

- 2.1 Liaise with PMI and DHO to conduct a ToT on first aid for Task Force members
- 2.2 Facilitate the First Aid Trainers and PMI to conduct basic first aid training for community members
- 2.3 Coordinate with the International Training Consortium for DRR (ITC-DRR), WHO, PMI, and DHO and work with the service provider to conduct BTLS training, incorporating multi-hazard disaster preparedness training for health staff
- 2.4 Procure and distribute first aid kits to ToT participants as well as PMI for further distribution to community members
- 2.5 Encourage and facilitate health staff to conduct more DRR-related health education initiatives, including on water and sanitation, hygiene, environmental health and waste management, and provide outreach to vulnerable citizens
- 2.6 Engage Technical Trainers to work with IOM and its local implementing partner to conduct trainings for health staff on preparing their health facilities for natural disasters
- 2.7 Revise, print and distribute *Modul Pelatihan 2009 – 2010* for the health sector

**Result 3:** Coordination and information exchange between key DRR stakeholders is strengthened.

- 3.1 Coordinate with village governments and community groups to establish Village Disaster Management Team
- 3.2 Consolidate existing publications to develop IEC materials on multi-sectoral DRR including health and distribute them to simulation and training participants, Village Disaster Management Team members and attendees of awareness raising events
- 3.3 Coordinate with Garut DRR forum members to organise DRR day at the district level
- 3.4 Liaise and coordinate with district and sub-district government officials as well Village Disaster Management Teams to conduct cross-visits
- 3.5 Using a combination of traditional folk media and modern media, conduct awareness raising initiatives, e.g. performances and radio shows
- 3.6 Participate in DIPECHO consultative meetings and other DRR coordination mechanisms to promote and advocate the protection of vulnerable citizens but also the link between DRR and health
- 3.7 Conduct a lessons learned/handover workshop involving all key stakeholders, including government agencies.

### Links to previous outputs on DRR & CCA

- **Hazard maps and risk assessments.** The information on hazard maps and risk assessment need to be shared to the key stakeholders to ensure a thorough understanding of hazards and risks in the community
- **The Disaster Management Team in each village.** The Disaster Management Team will able to identify/clarify the chain of command and develop/update the DRR action plans and emergency responses SOPs
- **DRR action plans and emergency responses SOPs.** DRR action plans and emergency responses SOP developed in each village will be linked to the sub-district and disaster management frameworks.
- **Health Facility for Disasters.** The trainings on **Basic Life Trauma Support (BLTS)** and DRR-related health education initiatives will allow the health staff to prepare their health facilities for natural disasters.
- **Basic health skills and how to administer first aid kits for each village.** Basic first aid skills and first aid kits provided for task force members in each village will increase the capacity to response to disasters
- **Cross-dissemination of information and lessons learned to enhance synergies and complementarities.** Cross-dissemination of information will be held on regular basis not only to DIPECHO partners but also to DRR-related stakeholders for enhancing synergies and complementarities.
- **Cross visits.** Village Disaster Management Team as well as sub-districts and district government representatives will be invited on field visits to show to the participants ways to conduct DRR activities.
- **DRR day at the district level.** The DRR day organized at level district will enhance the collaboration among the DRR forum members, increase communication & information sharing.
- **Radio talk shows.** A series of radio talk shows to promote community awareness on disaster risk reduction activities

### Planned products (products, IEC materials, CCA components etc.)

- Disaster comics (e.g. flooding, landslide, earthquake, tsunami, volcano)
- Flipchart how "to prepare the disaster"
- Revise *modul pelatihan* 2009-2010 for health staff
- First aid kits manual

### Focal points, partner agencies and institutions:

- BNPB
- BAPPEDA- West Java
- BPBD
- Provincial Health Office
- District Health Garut

- BAPPEDA Garut
- SATKORLAK- Garut
- Social Welfare Department (Dinas Social)
- Yayasan Ambulance Darurat (AGD) 118
- University of Padjajaran, Medicine Faculty
- Indonesian Red Cross (PMI)

### About IOM and IDEP:

Established in 1951, IOM is the leading inter-governmental organization in the field of migration and works closely with governmental, intergovernmental and non-governmental partners. With 127 member states, a further 17 states holding observer status and offices in over 100 countries, IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to governments and migrants in various areas of intervention.

Yayasan IDEP is an Indonesian non-profit NGO (Non-Governmental Organization) that encourages program sharing with other grass roots projects through media and curriculum development. IDEP is also actively producing CBDRM manuals as well as public information materials related with disaster preparedness as well as developing self-sustainability and direct empowerment of local communities to improve their own situations through community based projects.

## Links to previous outputs on DRR & CCA

P3DM: Mercy Corps has been working with communities in Padang Pariaman and Pesisir Selatan Districts since late 2008 as part of the P3DM programme, establishing Disaster Preparedness Teams (DPT), conducting training, and building links to government and private sector. A recent evaluation in P3DM communities found that during the 30 September earthquake, the DPT members were significantly more prepared than others in their communities; Mercy Corps (with local partner Kogami) is now focusing on building the capacity of DPT members to transfer their trainings and knowledge to others.

## Planned products

Vulnerability and capacity assessment: With facilitation and support from Mercy Corps and partners, BPBD will coordinate a district-wide vulnerability and capacity mapping of Agam district through local actors (universities, communities, and government) and make the digital results openly available.

Government emergency simulation: Based on the lessons learnt, the BPBD along with district government officials from other agencies (such as education, public works, health, etc...), will take part in tabletop emergency simulations to practice and monitor the skills they have learned. The simulation will focus on coordination among agencies as well as preparedness for contingencies during an emergency response.

Provincial conference: A provincial DRR learning and evaluation conference will bring together Disaster Management Agency/BPBD staff and DPT representatives from the four districts Mercy Corps has targeted under the USAID P3DM and DIPECHO programmes, along with district officials from disaster agencies in other districts in West Sumatra and other DRR actors in the province. Enthusiasm generated through the learning and dialogue of the conference can be followed up through facilitation of BPBD cross-visits between the target districts and other districts.

School event: Based on the P3DM experience, Mercy Corps has found that school events, such as fun days, are a powerful tool for engaging with students and disseminating DRR messaging, and at least one such event will be held as part of this programme, involving students from all the 12 target schools.

Case study: Mercy Corps is planning to produce and publish a case study how this action supports the Hyogo Framework for Action. This will be distributed to stakeholders as well as other actors in the sector.

An external evaluation at the end of the programme will provide analysis of the extent to which anticipated programme results were actually achieved.

IEC materials: evacuation route billboards, posters, leaflets, brochures, district hazard maps.

**About Mercy Corps:** Mercy Corps exists to alleviate suffering, poverty and oppression by helping people build secure, productive and just communities. Mercy Corps helps people in the world's toughest places turn the crises of natural disaster, poverty and conflict into opportunities for progress. Driven by local needs, our programs provide communities with the tools and support they need to transform their own lives. Our worldwide team of 3,700 professionals is improving the lives of 16.7 million people in more than 40 countries. Mercy Corps has worked in Indonesia since 1999, addressing the root causes of poverty and improving the quality of life for urban and coastal communities affected not only by hazards and conflicts, but by ongoing and entrenched barriers to economic development.

**Project supported by the European Commission Humanitarian Aid & Civil Protection department (ECHO) through its Disaster Preparedness Programme (DIPECHO)**

## *Handicap International*

### *Mainstreaming disability in Disaster Risk Management initiatives*

#### **Indonesia & the Philippines**

**Indonesia:** *West Timor Island, Nusa Tenggara Timor Province, Kupang district & Timor Tenggara Selatan district*

**The Philippines:** *Metro Manila, Bicol Region-Catanduanes Province, Municipalities of Caramoran and San Miguel & Albay Province*

June 1<sup>st</sup> 2010 - August 31<sup>st</sup> 2011

*Components: Disability mainstreaming, CBDRM, capacity-building, advocacy*

**Result1-** In both countries, Key local stakeholders in Disaster Risk Management have increased their knowledge on disability and mainstreaming disability in DRM

- 1.1 With the participation of the local stakeholders, to adapt the existing training modules ("How to mainstream disability issues in CBDRM") and sensitization tools to the Indonesian and Philippines contexts and publish them.
- 1.2 To finish defining the target groups for trainings and evaluate their precise training needs to best adapt the training contents and methodologies, to formalize agreements.
- 1.3 To properly disseminate the information at local, and national levels.
- 1.4 To collect and publish best practices and lessons learnt in a participative way with the different partners; formalize them in a publication and to release the outputs through workshops at local and national levels.

**Result 2-** Support the integration of disaster risk management (DRM) in local governance and development

- 2.1 Support Provincial Disaster Management Office (PDMO) creation and capacity-building
- 2.2 Awareness-raising on DRR and its link to sustainable development of local chief executives, local development planners, and disaster managers at provincial, municipal, and barangay levels
- 2.3 Support and sustain Coordination Mechanisms in among and between DCCs at provincial, municipal, and Barangay levels
- 2.4 Awareness-raising and Trainings for the Media and Private/Business Sector
- 2.5 Support formulation, adoption, application and testing of Disaster Preparedness Plans at the Barangay level
- 2.6 Support for the integration, synchronization, and testing of School and Barangay Disaster Preparedness Plans including EWS

**Result 3-** In both countries, PWD are effectively integrated in the targeted areas' Community Based Disaster Risk Management activities

- 3.1 To conduct deep assessments to develop detailed and tailored training programs (schedule, content, selection of participants in the organizations...) and to formalize MOU
- 3.2 To implement appropriate training plans for each partners
- 3.3 To accompany and monitor the effective inclusion of persons with disabilities in the activities implemented by the partners who benefited from trainings.
- 3.4 To support the participation in the partners' activities of motivated persons with disabilities via the delivery of appropriate specific individual support (needs assessment, distribution of assistive devices, therapeutic care...).
- 3.5 To raise the targeted communities awareness on disability, specific needs and aptitudes of persons with disability and the need of mainstreaming them in DRR; to provide large information on the project activities and outputs.
- 3.6 To organize an inter-program exchange of practices and experiences in the Philippines, with

representatives of HI Philippines, HI Indonesia and representatives of the local organizations partners in the project.

**Result 4- A task force of disability focused organisations is prepared 1/ to meet PWD's specific needs in case of a natural disaster (Philippines) and 2/ to do guidance on how to mainstream disability in disaster preparedness (Indonesia)**

4.1 To evaluate and identify the staff to be trained (15 in Philippines, 9 in Indonesia).

4.2 To organise appropriate trainings for the task forces:

4.3 **In Philippines, to pre-position emergency stocks** within at least 2 organisations' premises including specific assistive devices for PwDs and elders and other extremely vulnerable with specific needs (bed ridden).

4.4 In Philippines, to document the lessons learnt and elaborate a training module for including disability issues in disaster response. In both countries, to largely inform all the stakeholders about these task forces through all appropriate means.

#### **Links to previous outputs on DRR & CCA**

- "[Mainstreaming Disability into Disaster Risk Reduction](#)" A Training Manual, "Inclusive Early Warning System" A Brochure, "Barrier Free environment for the shelter management" A Guideline for the DRR agencies and communities, "Mainstreaming Disability in Community Disaster Risk Reduction" Training Manual for Trainers & Field Practitioners, "Mainstreaming Disability in Community Disaster Risk Reduction" Facilitator's guide, developed by HI and publication funded by the European Commission (ECHO) under 4th DIPECHO South Asia Action Plan.
- "Drowning Sand and the Holy Banana Tree" Study Findings an Indigenous Knowledge, Community Coping Mechanism and Disability, "Community Resource Mobilization for the participation of Persons with Disabilities in Social Life", Capitalization and Lessons learning of the Project Study by HI and publication funded by the European Commission Directorate General for Humanitarian Aid (ECHO) under 3rd DIPECHO South Asia Action Plan.

#### **Planned products**

Posters, Leaflet, Quarterly Newsletter (Indonesia), Knowledge Attitude and Practices Survey, training module for including disability issues in disaster response (Philippines), Lessons learnt & Best Practices (Indonesia & Philippines)

#### **Focal points, partner agencies and institutions:**

##### **Indonesia**
