

Building safer and more resilient communities
in Southeast Asia

Enhancing Red Cross and Red Crescent Capacity to build Safer and more Resilient communities in Southeast Asia - Phase 2

Cambodia, Laos, Indonesia, the Philippines, Myanmar, Timor Leste, and Viet Nam

July 2010 - September 2011

Components: capacity-building; VCA, education, EWS tools; Climate Change; advocacy and communication

Result1- 07 national societies have enhanced their knowledge and organizational capacities for the scaling up of CBDRR programming and conducting training.

- 1.1. Facilitators workshop based on customized training package
- 1.2. National level thematic seminars for regional exchange
- 1.3. Training event on preparedness for response
- 1.4. Regional workshops on the integration of Climate Change Adaptation
- 1.5. A project planning process and management training course for Timor-Leste Red Cross

Result 2- The operational knowledge and regional exchange of experiences in CBDRR programming has increased amongst all national societies

- 2.1. 02 DRR field sessions based on the VCA tool and CBHFA
- 2.2. A VCA based field session for Timor-Leste Red Cross
- 2.3. Pilot DRR education for children and youth in Timor-Leste under its CBRR programme
- 2.4. Pilot Community based EWS in some CBRR programme areas in Timor-Leste
- 2.5. Animated movie on DRR games
- 2.6. Regional adaptation of guidance note on Climate Change Adaptation in VCA

Result 3- Networking and coordination between national society, other DIPECHO partners, local authorities and other stakeholders has been enhanced

- 3.1. 01 RDMC meeting and 2 sub-group meetings
- 3.2. Attendance of external trainings on selected DRR components
- 3.3. Quarterly newsletters on DRR
- 3.4. Dissemination of DRR Advocacy guideline

World Health Organization (WHO)

Strengthening Health Systems Preparedness for Emergencies through the Global Campaign for Safer Hospitals and Health Facilities in Small and Medium Cities

Regional Initiative. Cambodia, Lao PDR, Philippines, Viet Nam

July 2010 - September 2011

Components: Disaster Risk Reduction in the Health Sector

Result 1

Evidence-based assessment of hospital vulnerability conducted and available to decision makers

- 1.1 Adaptation and mainstreaming of assessment tools
- 1.2 Assessment of hospitals in small and medium-sized cities

Result 2

Technical resources for health sector disaster management planning made available and used by planners

- 2.1 Development of regional guides on business continuity plan after disasters
- 2.2 Adaptation and/or translation of regional guides on: 1) hospital emergency drills and exercises, 2) health and disaster for school administrators; 3) advocacy for safe hospitals and 4) MCM and hospital preparedness into Lao, Khmer and Vietnamese
- 2.3 Documentation of best practices in health emergency preparedness and response at the community level

Result 3

Capacity for disaster preparedness and response enhanced in small to medium sized cities

- 3.1 Preparations for and delivery of regional and country-level training courses (risk communication, safe hospitals in disasters, mass casualty management and hospital preparedness, hospital emergency drills and exercises, health and disaster for school administrators, advocacy for safe hospitals, and planning and design for new safe health facilities)
- 3.2 Adaptation and translation of country-level training courses

Result 4

Technical resources for structural integrity, safety and functional capacity of health facilities made available

- 4.1 Documentation of integration of risk reduction and environment-friendly health facilities in the revitalization of damaged health facilities in disaster-affected areas
- 4.2 Development tool and capacity enhancement to assess hospitals and health facilities damages after disasters

Result 5

Advocacy and awareness activities on the benefits and importance of disaster response and preparedness

- 5.1 Celebration of national DRR events with partners and stakeholders; participation in global campaign for One Million Safe Schools and Hospitals
- 5.2 Conduction of advocacy forum for health and education sector administrators and policy makers
- 5.3 Implementation of DRR advocacy through website, printed publications, films, Public Service Announcements, sharing of experiences and resources, and other methods

About the World Health Organization:

Working with a broad spectrum of partners from all sectors of society, the World Health Organization in the Western Pacific is involved in a host of closely related public health activities including research, data-banking, evaluation, awareness-raising, and resource mobilization.

One of the core functions of the Emergency and Humanitarian Action (EHA) unit of the WHO-Western Pacific Regional Office (WPRO) is to strengthen the Member States' capacity to prepare for and respond to health emergencies and disasters. In this regard, it continues to work closely with, and provides assistance to national governments' efforts toward disaster risk reduction through health human resource capacity and systems development, improved collaboration with partners, development and dissemination of health knowledge, capacity building, and management of crisis situations.

Partners: Plan International, Save the Children, ChildFund, HelpAge International and Coalition of Services of the Elderly, World Vision

Inception and Elaboration of Civil Society Partnership Modalities in the AADMER Priorities

South East Asia regional action.

Cambodia, Indonesia, Philippines, Vietnam

Timeline: June 2010 - July 2011

Components: capacity-building, training, knowledge management on AADMER and CB-DRR, multi-stakeholder partnerships

Result1- Civil Society organizations working in Cambodia, Indonesia, Philippines and Vietnam have increased understanding of the links between national DRR policies and programmes and the AADMER Work Programme, and have more knowledge and skills on how to engage and participate in these.

1.1 Mapping of national and sub-national DRR stakeholders (or collating if already documented) and assessment of needs (knowledge, skills, coordination) for engagement with AADMER

1.2 Analysis of DRR policies and laws in relation to AADMER requirements

1.3 Production of ICE materials on AADMER: translation of AADMER materials into local languages, Braille, audio books

1.4 Regional seminar on AADMER priority projects and partnership modalities for APG members and organizations of or working with vulnerable groups

1.5 APG Members conduct national and community-level orientation seminars (either directly or by supporting other organizations already working with these communities) on AADMER priority projects and partnership modalities for vulnerable groups

Result 2- Shared understanding of models and processes for embedding or institutionalizing national and ASEAN-level multi-stakeholder partnership in the implementation of AADMER Work Programme priority projects

2.1 Mapping and analysis of existing practices and models of partnerships, how they work, strengths and weaknesses, capacities and resources

2.2 Country level inception workshops to identify objectives of multi-stakeholder partnerships; partnership opportunities at the national level and in the AADMER priority projects; identify constraints and requirements; and develop models and processes for embedding multi-stakeholder partnerships at national levels

2.3 Coordination meetings with UN OCHA, ISDR, IAP, ICRC, IFRC, and other groups engaging with the ACDM and the ASEAN Secretariat

2.4 Expansion of APG Membership to include ASEAN based regional and national civil society partners

2.5 Expanded ASEAN Partnership Group Meetings

2.6 Further development of Year 1 proposal

2.7 Development of 5 year programme

Result 3- Support the ASEAN Secretariat in the 'people centered' implementation of the priority projects under the AADMER Work Programme's on Partnership and Resource Mobilisation, and Training and Knowledge Management Systems and ensuring that these have elements for initiating multi-stakeholder (MS) partnerships

- 3.1 Support for priority projects under the Partnership and Resource Mobilisation and Trainings and Knowledge Management through secondment of 2 Advisors to the ASEAN Secretariat
- 3.2 Workshop to elaborate on AADMER M & E partnership modality
- 3.3 Mapping of existing knowledge and/or trainings on CB-DRR, international standards and protocols for government DM/DRR agencies, and developing a Training Needs Analysis (TNA)
- 3.4 TNA, including multi-stakeholder partnerships and working with vulnerable groups
- 3.5 Design a training programme based on needs identified
- 3.6 ACDM and CSO forum on Year 1 implementation of AADMER (held jointly with 1.3 above)
- 3.7 Forum/workshop for DRR groups and/or networks and ACDM National Focal Points and ASEC on processes for institutionalizing multi-stakeholder partnership

Links to previous outputs on DRR & CCA / Planned products

IEC materials on AADMER

Documents detailing multi-stakeholder partnership models

Minutes and Proceedings of workshops, meetings etc.

Training Needs Analysis documents

5 year programme proposal for supporting people centered implementation of AADMER.

About the ASEAN Partnership Group and about OXFAM:

The ASEAN Partnership Group (APG) is composed of Oxfam, Save the Children, Child Fund International, World Vision International, HelpAge, Plan International and Mercy Malaysia. All members share knowledge, time and energies and engage their wide networks of partner and allied organisations across the ASEAN region. APG has committed to providing ongoing policy, planning and monitoring support to the ASEAN Secretariat on reducing infant mortality and building resilient communities.

Oxfam is a Non-Governmental Organization working with partners across the world to overcome poverty and suffering. Oxfam also work with the communities and seek to influence the powerful to ensure that poor people can improve their lives and livelihoods and have a say in decisions that affect them.
