

Disaster Risk Education for Children (DREC-LANGOCA)

Country covered:

Lao PDR

Duration:

July 2007 – December 2009

Project brief:

- **DRR Modules for Primary and Lower Secondary grades for schools in Sayaboury district of Laos was developed.** The DRR modules along with teacher guidelines and text books were adapted for grades 3, 4 and 5 under primary grades and grade 6 under lower secondary grades. The DRR modules were adapted by a taskforce established at district level comprised of district education department, provincial education department, selected teachers from four target schools in Sayaboury and representatives from provincial and district department of Labour and Social Welfare.
- **Testing of DRR modules in four target schools in Sayaboury.** The modules were tested in four target schools in Sayaboury from March – June 2009.
- **IEC materials were developed to be used in Sayaboury.** This was done in collaboration with other ADPC project being implemented in Laos namely MDRD Education project and FEMS funded by ECHO and GTZ.
- **Child-led DRR clubs were established in four target schools in Sayaboury.** Those clubs are playing a key role in enhancing DRR knowledge and advocacy campaign to their parents on DRR.
