

CBDRR Training in Yangon, Myanmar

Country covered:

Myanmar

Duration:

August 2009

Project brief:

A six day capacity building training for the French Red Cross (FRC) and Myanmar Red Cross Society (MRCS) and other stakeholders of Myanmar working on CBDRR was organised in Yangon between 3rd and 9th August 2009. The course focused on participatory learning and field visit on PRA tools and the process of CBDRR. The course was based on adult learning techniques where participants learned and share their experience with lot of fun, role play, video shows, group discussions and presentations. FRC arranged interpreter as the delivery of the course was in Burmese language. All the material was given on CD to the course participants.
