

Regional Training Manual on DRR for Coastal Zone Managers

Country covered:

Regional

Duration:

June 2008 – March 2009

Project brief:

- In partnership with UNEP, ISDR and IUCN, a one day special event was conducted on Ecosystems based DRR at the IUCN World Congress held in October, 2008 in Barcelona.
- In partnership with UNEP and IUCN, a 3 day training was conducted on DRR and Climate Change Adaptation in Coastal Areas at the Regional Training Course of the Mangroves for the Future in Semarang, Indonesia in October, 2008
- In partnership with UNEP, ADPC is currently developing a Regional Training Manual on Disaster Risk Reduction for Coastal Zone Managers. The primary objective is to build capacities of the professionals managing projects related to coastal zone management to integrate DRR concerns into their projects. The Training Curriculum focuses on DRR and the importance of Ecosystem based DRR measures.
