

OVERVIEW OF THE TRAINING

This training program provides an advanced and comprehensive understanding of GESI in disaster risk reduction (DRR) and climate resilience (CR). It aims to equip participants with the knowledge, tools, and skills necessary to integrate GESI principles into DRR policies, programs, and implementation strategies through in-person participation, discussion-based interactive and field visits for applied learning from 12 to 23 May 2025 in Bangkok, Thailand.

WHO SHOULD ATTEND THIS COURSE

This training is designed for government officials, policymakers, and development practitioners working in DRR, climate adaptation, and resilience-building. It also targets humanitarian actors, CSOs, NGOs, and grassroots organizations advocating for gender and disability inclusion in disaster preparedness and response. Additionally, the program will benefit academics, researchers, and UN agencies engaged in GESI-responsive DRR and climate adaptation initiatives.

TRAINING OBJECTIVE

The objectives of this training are as follows:

- Enhancing understanding of GESI in DRR on how gender, disability, and social inequalities intersect with disaster risks, vulnerabilities, and resilience strategies.
- Promoting inclusive DRR policies and practices to equip participants with the tools and frameworks on GESI principles for DRR planning, policy development, budgeting processes, etc.
- Strengthening leadership and participation to advocate empowerment for women, girls, persons with disabilities, and marginalized groups as key decision-makers and agents of change in locally led adaptation and resilience-building efforts.

- Strengthening skills to apply practical tools and frameworks with hands-on experience on gender analysis, disability inclusion frameworks, GESI checklist and monitoring & evaluation (M&E) tools to track progress in GESI-responsive DRR.
- Collaborating to build capacity among government officials, policymakers, humanitarian actors, CSOs, and researchers to ensure a coordinated and inclusive approach to DRR and climate adaptation.

Training Module:

A brief description of the content of the training is as follows:

Module 1 - 4: Gender in DRR, online self-paced modules that equips participants with the knowledge and tools to integrate gender perspectives into DRR policies and practices through four key modules:

Module 5: Revisiting e-learning course (module 1 to module 4): Gender in DRR

Module 6: International, Regional, and National Policy and Legal Frameworks for GESI and DRR

Module 7: Overview of Gender Equality, Disability Inclusion, Intersectionality and Disaster Risk Reduction (DRR) and Climate Adaptation

Module 8: GESI Mainstreaming Tool, Monitoring, Evaluation, and Financing of Gender Integration in Climate and Disaster Context Frameworks

Module 9: GESI and DRR, shock-responsive social protection and early warning system

Module 10: GESI-responsive project planning and design of Gender Action Plan (GAP)

Module 11: Artificial Intelligence for GESI and DRR
